Tally

High-speed printing - At 10 cpi, print speed ranges from 113 cps for letter quality to 432 cps for high speed draft quality. A 24 pin print head offers high speed with excellent quality.

Software compatibility - Compatible with the IBM Proprinter XL24E and Epson ESC/P2 command sets.

Multiple fonts - The printer has nineteen resident fonts: Ten bitmap fonts - Courier 10, Pica 10, Prestige Elite 12, Boldface PS, OCR-B, OCR-A, Correspondence, Compressed, Draft and High-speed Draft, and nine outline fonts - Timeless, Nimbus Sans and Courier, each in upright, italic and bold.

Large print buffer - 128k bytes are available in total for strong input data and downloading fonts. A large input data buffer allows you to send files to the printer and return quickly to your application.

Simple switching of paper types & Auto tear-off - Parking continuous forms makes it easy to switch between continuous forms and single sheets. Continuous forms are automatically fed up to the tear-off position at the end of each job.

Maintenance free - Periodic cleaning and changing the ribbon cartridge are all that's required.
